INSPIRED by our Representatives

Silpada's Co-founders, Bonnie Kelly and Teresa Walsh, were first inspired to learn more about JDRF by a Silpada Representative whose son was diagnosed with juvenile diabetes. Instantly, Bonnie and Teresa knew Silpada Designs had found an organization that shared their enthusiasm for results and the desire to help others—two common traits of Silpada Representatives. With JDRF, Bonnie and Teresa discovered an organization they related to, trusted, believed in, and could proudly partner with.

The CAMPAIGN

At their Home Show parties, Silpada Designs Representatives have the opportunity to sell the JDRF Polishing Cloths and create a greater awareness of juvenile diabetes.

For every Polishing Cloth sold, Silpada Designs, in conjunction with its independent Representatives, donates \$1.00 to JDRF. The signature 10"x 8" cotton fabric cloth retails for \$5.00 and is specially treated and designed to polish Silver, Gold and Platinum jewelry. It will help your jewelry shine and will add a little sparkle to a child's life!

Individual SUPPORT

The Polishing Off Juvenile Diabetes Campaign has opened Silpada Representatives' eyes to a whole new world that affects millions of Americans every day.

As a result, many Representatives have become actively involved with their local JDRF chapters and have donated thousands of dollars in addition to the Polishing Cloth donations. All Representatives do their part knowing that, together, we can help find a cure.
